MAY 1 - 4, 2025

Welcome to Beyond Leather 2025

On behalf of the BL staff and volunteers, we want to welcome each and every one of you in celebrating our 17th year at a fabulous Palm Beach location filled with positive energy and excitement as we create new memories.

We would like to express our sincere gratitude to all the presenters, vendors and volunteers for their hard work and dedication. We'd also like to thank our wonderful sponsors who make the extra things possible. It's impossible to produce an event like this without each and every one of you, so thank you all so very much for helping us make Beyond Leather an event that is filled with such a strong feeling of family, has great positive energy and is something that we can all be very proud of every year.

We are excited to have the International Power Exchange (IPE) contest. The International Power Exchange contest has 1 outstanding regions and 1 international and has grown to be all we dreamed it could be. We believe this contest reflects and embraces the evolution of our lifestyle and it's great fun.

Our line up of presenters this year is just amazing! The biggest problem will be deciding which workshops to attend. Good luck!

While some things have changed through the years at Beyond Leather, much will stay the same. We will always promote a drama-free, positive energy zone and continue to bring you the very best in education, entertainment and vendors.

As the producers of Beyond Leather, we want to extend a warm welcome to newcomers and a heartfelt welcome home to all of you who have supported us through our journey.

We will continue to make BL an event that you will look forward to returning to year after year. Thank you all so much for giving of your time and talent to help make Beyond Leather an event not only to remember, but one that should not be missed!

Perfected over countless storytelling events and always received with laughter, tears, and genuine thanks. This talk unpacks what suicide looks and feels like for those going through it. Workshops

FEMDOM ENERGY CONNECTION & THE POWER EXCHANGED: Lady Jewelsie – Femdom energy connection describes the dynamics and emotional intensity present in a female-dominant power exchange relationship. It isn't just physical; it's emotional, psychological, and deeply rooted in trust, communication, and respect. This exchange of power is not just about dominance and submission in the traditional sense but about the balance of energy between both partners, where both parties fulfill their roles in a mutually satisfying way.

FINDING BALANCE ON THE SLASH – Switch Perspectives in Kink, BDSM, and Leather: Bratty Azzassin – Switches are the often forgotten or misunderstood stepchildren of the different alternative communities we move in. Some go so far as to not recognize the existence in history and see Sswitches as a TNG thing. This class provides a personal perspective on the way in which a Sswitch identifying individual has identified & navigated in, found & viewed, as well as created personal space and shared space with other switches. How to ensure that this portion of our community is considered in event development is also discussed as it relates to inclusion and safe space.

FROM THE BOTTOM TO THE TOP: Master Talon – A Masters Journey: Join Master Talon for a trip through time as he made his leather journey from boi to Master. Come and share in the ups and downs, joys and sorrows, steps taken and lessons learned along this path. Leave with a better understanding of what it takes to follow your unique path to wherever it leads.

IDENTIFYING AND MANAGING CON DROP: Master Noelle Ma'am & Alpha Alacks Jaan: Your weekend was all you wanted and more. Now what? When you experience a weekend of intense brain chemicals, recovering from that can require more specialized care. Please join U/us and our Beautiful, Master Noelle Ma'am, as W/we identify why con drop is a thing, how it shows up, and how to manage it effectively.

LITTLES AND CRITTERS (R.O.M.P): Karen Ma'am – Sunday 9:30 – 12:00
Calling All Littles and Pets. Come join the fun!

POLYAMORY FAMILIES AND DYNAMICS: Mistress Mayhem – The ins & outs of blending different kinds of poly and different views on polyamory for a unified goal. Finding harmony with your own poly and that of your partners. What's it like when very different kinds of people make a poly life together? The components that go into making this work for everyone. All relationships must contain the same building blocks, the more involved the more you realize just

Workshops

how important the simple things are.

POWER OF CONSENT Navigating Kink & Power Exchange: Master Malcolm & Farrah – Consent is a fundamental principle in BDSM, and it is crucial to understand how it applies in different kink and power exchange dynamics. In this presentation, we'll explore the nuances of consent and how consent functions in various BDSM relationships. We'll cover the various models of consent, how to find and build a model of consent that works for you, negotiation, communication, and boundaries, and how these concepts intersect with power exchange dynamics. We'll also discuss common misconceptions about consent and power exchange and explore ways to navigate complex consent scenarios in kink and BDSM. Whether a newcomer to the BDSM community or an experienced practitioner, this presentation is designed to help you deepen your understanding of the role of consent in kink and power exchange. You'll come away with practical tools and strategies for negotiating consent and boundaries with partners and enhancing the safety and enjoyment of your BDSM experiences.

POWER, PRESENCE & IMPACT Leading with Vulnerability: Alex – True power comes from authentic communication, especially in spaces where vulnerability is key to connection. In this session, learn how to use open, honest dialogue to foster trust, improve relational dynamics, and create lasting impact in your personal and professional circles. Whether negotiating a scene or navigating everyday interactions, this session will leave you with tools to communicate authentically and powerfully.

REPLENISHING THE WELL FOR OUR FUTURE Leadership in Family, Community, and Culture: MASTER DHM – Ask yourself three questions: What (or who) brought me into the BDSM community? What keeps me going within the community? What do I see for the community's future? Thanks to certain influences from Hollywood and other sources, the BDSM community has found itself to be more "mainstream" than ever, yet the new energies that are created can burn out just as fast as they appear. Leadership is a critical component to the safety, success, and future of our community. But what is leadership and how does the practice of leadership apply within the BDSM culture? This class will explore what leadership is and how critical leadership skills are developed, recognized, and asserted amongst people within the BDSM community. We will identify leadership skills and traits and discuss ways to apply them. This class will benefit everyone from individuals, to multi-partnered family units, and even the established BDSM community leaders because this class will provide the tools to help "replenish the well" for a better

Workshops

future within the BDSM community.

SPEED PERVING: Divinity – Sometimes it can be hard to figure out what to say to someone, especially at an event when you're from out of town or you're just not going out into the community as often as you'd like. Well, Speed Perving helps break the ice in our wonderful kinky way! Come join us and find a new friend, a play partner or more! The possibilities are only limited to your imagination. **THU 9:15p – 10:30p**

THE ART OF SERVITUDE: Exploring Masculine and Feminine Positions in BDSM: Lady Jazz – This interactive session delves into the ritualized body positions and gestures that can enhance power exchange in Dominant/submissive (D/s) and other kink dynamics. We will specifically explore how these positions may differ for those who identify as male or female, and how they can be used to reinforce roles of service, obedience, and respect. Through demonstration and hands-on practice, participants will learn the significance of each posture, the nuances of body language, and the use of discreet hand signals—enhancing both private and public play.

THE GIFT OF NO: Empowering Boundaries and Self-Care in a Power Exchange Relationship: Master Malcolm & Farrah – A Power Exchange relationship is filled with constant demands and expectations, the ability to say “no” can be a precious gift to yourself and your partner. “The Gift of No” is a transformative workshop designed to help both In-Charge and Not-In-Charge individuals harness the power of this two-letter word to set boundaries, prioritize self-care, and live a more fulfilling and authentic life. This workshop is for anyone seeking to enhance their assertiveness, self-care practices and overall life satisfaction. Whether you are an In-Charge or Not-In-Charge person that struggles with setting boundaries and saying “no” effectively, this workshop will offer valuable insights and practical tools to enhance yourself and your Power Exchange relationship.

“TOXIC” MASCULINITY AND POWER EXCHANGES – Master Noelle Ma’am & Alpha Alacks Jaan: We all have a part to play in identifying and navigating the ‘toxic’ masculinity in our lives. In this class we will answer these questions: What is it, how do you identify it, and is masculinity toxic? Please join U/us and our Beautiful, Master Noelle Ma’am, as W/we discuss navigating how deeply rooted toxic masculinity is in O/ourselves, O/our community, and how it impacts each person in O/our relationships.

BEST OF BOTH WORLDS Give me Pain but make it Sexy: slave sunflower – People oftentimes hear the word masochist and associate it strictly to just experiencing painful and torturous play. However, there are those that not only enjoy the pain but also love sensuality added to the mix. This interactive class talks about both worlds individually and provides demos on ways to involve both for a little extra fun!

LET'S TALK ABOUT SEX: Boy Luis – The differences between sex, Sexuality, and Gender. The goal is to discuss/define the different components and how they play a role in a person's identity.

Workshops

MAGICAL ORGASMS: Tony The Grey – Explore some of the physical and mental aspects of stimulation. Delve deep (literally) into the subject of vaginal orgasms. Debunking myths about squirting and the G spot. Introducing a method of conditioning a consenting partner into cumming on command.

MALE SOUNDING The “Sounds of Sounding”: Master Tony Black – The old-time mariners developed a process of measurement which came to be known as sounding. In today’s various worlds this term “sounding” has taken on various meanings, different yet derivative of each other. For those of us within the Leather/BDSM world, “sounding” is a rather awesome form of sensation play. This workshop explores the proper way to enjoy and explore male sounding. This demo/class will cover safety concerns as well as the basics of using sounds for play along with structuring a scene with sounds as the focal point.

MIXING SENSUALITY & SENSATION: Boy Luis – Incorporating various types of scene play into a service, sensual play space through the use of temperature, texture, and service scene modalities.

101-Defcon 5: OBJECTIFICATION to COMPLETE DEHUMANIZATION: VKD – This class will take you through the ups and down of 101, 201, 301, 401 and WTF-01. From objectification to dehumanization and every single effed up thing we can fit in between. Check your morality, discard your humanity, settle in and let’s talk. We are going to cover the strength building aspects of objectification and the easy ways to destroy baggage in your psyche with dehumanization. We will mess around with humiliation and jump full bodied into degradation. This class has it all. Come on in, if you dare.

BEYOND BOTTOMING: Redwarrior – Taking and enjoying more pain and being the best bottom to play with! There are dozens of classes to help a Top gain new skills for Topping. This class focuses on skills for bottoms to become more skilled at bottoming, from techniques to process pain to creative ways to

Workshops

initiate play and delight your Top, and ways to be more interactive within a scene without taking power from the Top. We will discuss energy exchange, communication, and helping to build anticipation and prepare long before the scene as well as how to communicate and recover long after the scene has ended. This class will end with a demonstration of the techniques discussed.

CANING WITH FINESSE: Miss Rae & chris – Miss Rae has a serious love for canes and a real passion for teaching how to use them. This class will cover a brief explanation of how canes are made, stored and maintained. And then on to the good stuff where she will show you how they are used. Miss Rae will share with you how to use a cane for the best results from your bottom or how to process the pain if you enjoy having them used on you. Do you have a fear of canes being used on you? She will help you get over that... quickly! Have you used them on someone, but you just weren't getting the reactions you expected? This too shall pass. Canes can be used in so many ways and Miss Rae will help you learn how to properly use them or how to enjoy having them used on you from sensuous to sadistic and all stops in between. She will go over the basics of how to hold and swing a cane using several different techniques and then the focus will shift into a more advanced lesson on caning. Bring canes if you have them or borrow one of hers. Everyone is welcome and "hands on" participation is encouraged! Don't be shy!

CINCH IT UP: Miss Rae & chris – If you have ever thought what it would feel like to wear a corset, you will enjoy this class. Perhaps you already have a corset, but it just doesn't feel like it fits right, come to this class. Miss Rae has a love for her corsets and wants to share her passion and knowledge with you. She will teach about the different styles of corsets, how to choose the best one for your body type, and how to properly wear, lace and store them. She invites you to bring your corsets with you or try on one of hers. This class is for all body types and all genders!

DEVIL'S FIERY KISS: Marilyn Z – Do Bruises and marks fade. What if you want more? Something longer lasting or permanent without bleeding. More personal than a professional tattoo. Not as fast as a strike brand. Cell-popping (aka micro-branding) and cauterizing pens are a delightful option. The transfer of patterns and implements to use will be shown. Come witness, learn, and decide if this is for you.

EROTIC BOOTBLACKING – Bootlicking, Bootworship, and Making Love to Leather: Redwarrior – Delve deeply into the erotic side of bootblackening with this class which will explore both the Top and bottom side of this Leather

Workshops

artform. We will discuss the products you need, the energy exchange you crave, and how to set up scenes that will lure either Tops or bottoms to your bootblack stand, eager for more. We will also discuss the differences between erotic bootblacking and other types of bootblacking, issues of consent, and safety. Mostly, though, we will concentrate on inspiring you and giving you the skills, you need to thrill. There will be a demonstration of a bootblack scene with examples of both Topping and bottoming as a bootblack.

FLORENTINE FLOGGING: Master Oakman & slave diamond – This is a hands-on workshop requiring two similar in weight and length floggers. (W/we have extras) Florentine Flogging involves two floggers used simultaneously and in unison to produce a rhythm of strikes. The over and underhanded wrist motion used in this technique requires accuracy, skill and control of the tails of the floggers. Other factors include the length and material of the tails that the floggers are made of producing unique sensations either stingy or thuddy depending on the desired effect.

GENDER FUCKERY: Kiwi & Moonie – Gender can be fucky sometimes, so why not fuck it? In this class, we will discuss and showcase some ways to use kink to explore, affirm, and use gender to enhance your play. We will give a basic overview of gender identity and expression before delving into the fuckery. This class is open to all genders, even (and especially) the unique ones. Interactive CW: consensual non-consent, demo, hypnotic language, partial nudity, sadism, loose titties, gender dysphoria.

GUIDE TO NEEDLE PLAY: TheSirDee Heart – This class will cover: Safety, Equipment, Insertion, Placement & Design Removal

IMPACT SCENES 101: Lady Elsa & Master Vick – New to impact play? Come on in—no experience required! You'll learn how to select floggers and other impact toys, and how to tell the high-quality from the bargain-basement models. We'll discuss safety and pre-scene negotiation, topping techniques, endorphins, aftercare, and more. Time permitting, you'll also get to experiment with some impact toys and learn what you might like to have in your own collection.

LEADING THE DANCE: Master Talon – Does the beauty of a well-played scene intrigue you? Have you wondered at the magical mind reading powers of a skilled top? Join Master Talon to learn techniques that will help you to read your bottom, and ways to use that knowledge to lead them through the dance and into a happy place. Come prepared to participate in this very interactive class!

Workshops

PRIMAL PLAY 101 Discovering the Energy Inside: FranklyASlut & Mynxie – In this class we discuss the misconceptions of some primal play and how in recognizing that primal play is an energy play it can expand the scope of what primal is and how it can be incorporated to all types of play. After a segment of history, safety, and some discussion of how to use the energy in play we take the class through a guided meditation to discover their primal totems and start their journey.

RELIGIOUS PLAY – Father, Son, Holy Shhhhit: VKD – “Forgive me Daddy, for I have sinned” We will talk about the stigma, the guilt and the acceptance of religious play and being religious while involved in kink. Can you be religious and kinky? Do you want to go down on them, while giving confession? Do you have dreams of a latex clad nun spanking your ass? We are going to discuss role play, the psychological and emotional pitfalls of religious play and how to emphasize the expression of power exchange incorporated in this type of play. So c'mon, don't you want to know what happens when you ask “Father, may I?” This is an interactive class

SINGLE TAIL WHIPS 101: Master Oakman & slave diamond – This is an Introductory Whip Class which teaches How to Throw and Crack...Learn Fundamentals, Repetition of Good Fundamentals and Then onto Finesse. Everyone will Throw and Crack the Whip, regardless of Skill Level ! This is a Hands on Class ! No Need to own a Whip, We have over 30 Whips to Try. Get Your Crack On !!

THE JOYS OF ROLEPLAY FOR KINKY FOLKS: Madame Navia – Let's take an hour and become a fantasy character and indulge into our fetishes in different ways. In this class, we explore escapism, character development, creative kink and spontaneity and adding quick witted fun or chaos into your scene. Learn how becoming a devious, sensual, or sinister character can heighten the senses of your partner and leave lasting memories and heighten your sexy time. Feedback and interaction on scene possibility is part of this class so be prepared to laugh, kink totally outside of the box and leave with lots of new ridiculous ideas.

BEDROOM BONDAGE: Tony The Grey – Explore easy rope bondage. This class is about fuckability, not hardcore restraint. Use only two ties to position a body however you want.

ENERGY PLAY WITH ROPE: Beyondnewmatt – Explore the profound impact of energy play through rope in this engaging and transformative workshop.

Workshops

Designed for rope enthusiasts who want to deepen their understanding of how rope can enhance emotional and energetic connections, this class will teach you how to integrate the flow of energy into your rope play for more immersive and resonant experiences leaving us in blissful goo.

FLYING AND FUCKING: Mistress Mayhem & Spike – You have spent the time to learn rope suspension. You have put in the work, and now you want to apply it by having sex with your suspended partner. What pitfalls will you encounter? What should you do differently from a regular rope suspension? Join Spike and Mistress Mayhem as they walk you through Flying & Fucking.

FUCK AROUND AND FIND OUT Shibari for Lovers: Beyondnewmatt – A Bedroom/Sex Bondage Rope Class Transform your private space into a canvas for elegance, intimacy and sweet passionate fuckery. This class is designed to introduce you to Shibari techniques tailored for the bedroom, focusing on creating beautiful, functional, deeply connected and hot hot oh so hot rope experiences in a comfortable setting.

PRACTICAL DUNGEON BONDAGE: Stoopidkitty – For this class, all you need to know is a lock off and a single column. I will show you hojo cuffs (rope handcuffs) and show you how to use them to tie a bottom to a spanking bench or secure them to a bed.

PREDICAMENT BONDAGE: MissB4Tune – with Non-rope emphasis This class will offer ideas on how to incorporate predicament into your play without strong Shibari skills. It is an interactive class where attendees will be allowed to create, manipulate, and bottom for predicament challenges. Predicament bondage forces the bottom into compromising positions, physically and mentally. They are left to choose sensory or painful stimuli based on balancing muscle or mental or even emotional fatigue.

ROPE JAM: Stoopidkitty – Open space to practice with a person on site to ask questions of, guide you, or just spot you and keep an eye on you.

THE “TEDDY BEAR” TIE: Spike – Tying a person’s hands behind their backs can be painful, even dangerous. Some riggers have been trying to steer away from behind-the-back ties and coming up with ways to tie a bottom’s hands in front of them instead. Join Spike in learning his “Teddy Bear” tie. You will need at least 3 hanks of rope and the willingness to learn in a workshop environment.
