# Welcome to Beyond Leather 2026

On behalf of the BL staff and volunteers, we want to welcome each and every one of you in celebrating our 18th year filled with positive energy and excitement.

We would like to express our sincere gratitude to all the presenters, vendors and volunteers for their hard work and dedication. We'd also like to thank our wonderful sponsors who make the extra things possible. It's impossible to produce an event like this without each and every one of you, so thank you all so very much for helping us make Beyond Leather an event that is filled with such a strong feeling of family, has great positive energy and is something that we can all be very proud of.

We are excited to have the International Power Exchange (IPE) contest which has grown to be all we dreamed it could be and continue to grow. We believe this contest reflects and embraces the evolution of our lifestyle and it's great fun. We also have a new and exciting addition, Power Exchange Together. P.E.T. which in less than 2 years has chapters all over the nation and Internationally. We are hopeful these chapters grow into IPE regions as well as state feeders into already existing regions and there's room for growth.

Our line up of presenters this year is just amazing! The biggest problem will be deciding which workshops to attend. Good luck!

While some things have changed through the years at Beyond Leather, we will always promote a drama-free, positive energy zone and to bring you the very best in education, entertainment and vendors.

As the producers of Beyond Leather, we want to extend a warm welcome to newcomers and a heartfelt welcome home to all of you who have supported us through our journey.

As our last year as producers for Beyond Leather we would like to express our sincere gratitude for all the support we have received over the last 18 years! We hope you will continue to support the new producers. We love you all!

Thank you! Now let's get this party started!

Though many people who enjoy BDSM will tell you that they are not “into pain”, they forget that

# Workshops

in almost any kind of activity in the dungeon or bedroom, pain plays a significant role. From a playful swat of an erotic spanking to an out-of-body experience brought on through an intense temporary piercing, pain can produce amazing effects. Playing with Pain explores the often overlooked secrets of how people process pain in an erotic setting and the dynamic power exchange involved. It also explains how intense stimulation can be applied in precise and measured ways.

**PRIMAL PLAY: Redwarrior** – It's raw, adrenaline pumping, teeth gnashing, growls deep in your throat. In this class, the animals inside come out to play and they play rough! We'll talk about the challenges of getting into a primal headspace in play as well as the unique challenges of maintaining consent and awareness in those headspaces. This class builds to a demo of these techniques that will have you ready to bare your own teeth in the dungeon.

**RHYTHMIC BEATING: Miss Rae & chris** – “Studies have shown that vibrations from rhythmic sounds have a profound effect... In shamanic traditions, drums were used in periodic rhythm to transport the shaman into other realms of reality... constant rhythm affected the brain... allowing the shaman to achieve an altered state of mind and journey out of body” (excerpted from [www.brain.web-us.com](http://www.brain.web-us.com)). Experience how to use music as sadomasochistic play by becoming the instrument or the musician. Rhythmic Beating is a surreal way of pounding the beat into someone until their heartbeats are synchronized with the music. Discover the endorphin rush, spiritual connection and cathartic release found through the pain and the pleasure. Learn about safety and techniques as everyone becomes a circle of pulsating exotic and erotic energy. This is a hands-on class where everyone will find the beat within as our collective energies crescendo to the rhythm.

**SACRED THEATER 101 Crafting Intentional Scenes: Alex Shazear & CollaredFire** – Every great scene embarks on a journey. In this session, we'll explore the choreography of play—from the quiet spark of negotiation to the emotional landing of aftercare. Through discussion and live demo, you'll learn how to co-create a container within your dynamic that invites emotional depth, navigates natural transitions, and adapts in real time when energy shifts. Whether you're stepping into topping or refining your skills, this workshop offers practical tools for crafting scenes that are consensual, connected, and creatively fulfilling.

# Workshops

**SACRED THEATER 201 When Scenes Go Sideways: Alex Shazear & CollaredFire** – Sometimes it's a broken toy. Sometimes it's a broken moment. What do you do when the scene's container cracks—when emotional energy drops, connection falters, or the unexpected throws everything off balance? Through discussion and demo, we'll explore how D-types and facilitators can recognize derailment, take the lead in adapting or ending a scene safely, and rebuild trust through presence and aftercare. You'll leave with tools to navigate the messy moments and reinforce the container—because safety, resilience, and leadership don't stop just because the script falls apart.

**SINGLE TAIL WHIPS 201 301: Master Oakman & slave diamond** – This is an advanced workshop. You will need to bring a whip. We also have many for you to use if you don't have your own. W/we learn how to strike someone and some advanced cracks and wraps etc...This is a hands-on workshop.

tive. This will not be a hands on class. I am a 4'11" female who focuses on suspending 200+ lb heavy male bottoms and non-masochists. I will share some of the struggles that I have had to work through. I work in the shibari aesthetic, but I am not a sadist in suspension. This class will also touch on these topics, depending on interest: confidence issues in tops, larger bottoms, male bottoms, comfortable rope, and empowered bottoms.

**TANGLED IN THOUGHT, Rope Play & Neurodivergence: Vana** – This class is a deep dive into the unique intersections between neurodivergence and rope bondage—designed especially with autistic educators, presenters, and tops in mind.
